

COLLECTED SECONDARY MATERIALS

M-01
Glass Grinding Sludge
20 t/a

finely ground glass from
drinkware production and
heavy metal particles due
to tool abrasion

M-06
Glass Grinding Sludge II
103 t/a (combined with M05)

finely ground glass from
grinding machine II in the
sheet glass production and
heavy metal particles due
to tool abrasion

M-09
Kaolin Sludge
400 t/a

kaolin, quartz sand,
feldspar

M-10
Ceramic Shards
300 t/a

kaolin, quartz sand,
feldspar

M-11
**Off-Cut
Foam Brick**
n.s.

offcuts from foam glass
production, collected from
the BioDesign Lab archive

M-12
Ultra-fine quartz
45.000 t/a

fine filling material

M-05
Glass Grinding Sludge I
103 t/a (combined with M06)

finely ground glass from
grinding machine I in the
sheet glass production and
heavy metal particles due
to tool abrasion

M-07
Filter Presscake
160 t/a

lime sandstone, dolomite,
clay

M-13
Kaolin VP 20101-02
40.000 t/a

residual material with
kaolin content, pre-sifted

M-14
Kaolin VP 20101-06
40.000 t/a

residual material with kao-
lin content, pre-sifted and
fired at 750 °C

M-15
Quartz gravel
7.000 t/a

coarse filling material

M-16
Metakaolin
not a residual material

product for reference
purposes in future testing
